

## BADRY REMODELING

### Definition & Presentation

We are part of BADRY GROUP, a specified professional Remodeling & Renovations company in the family-owned BADRY Group portfolio. Investing in people and companies for 20 years. In the '2010s BADRY launched our professional department for Remodeling for interiors & exteriors renovations.

Our Remodeling & Renovations work is branching out into three divisions;

Interior Renovation

Exterior Renovation

Emergency Response

BADRY Remodeling carries out Demolitions, Renovations, Replacement and Upgrade works and the Maintenance and Rehabilitation of various types of buildings and facilities, including, for example, homes, residential, commercial, administrative, service and educational buildings, villas, tourist resorts, markets, malls, trade centers, places of worship and others.

BADRY Remodeling furnishes All-In-One for each; Interior & Exterior Remodeling, starting from Demolition, then Remodeling for; Framing, HVAC, Plumbing, Electrical, Low Current Systems, Networking, Kitchen, Baths, Cabinets, Flooring, Gypsum Boarding, False Ceiling, Carpentry, Door & Windows, Plastering, Painting, Dry-walls, Roofing, Siding & Facades, Fencing & Decks, Landscape & Parking.

As Remodeling work takes time and money, and it has several steps to being done, BADRY shall plan, design, and budget the project for its client, means well BADRY establishes a detailed timeline and the budget for the project to ensure our client building or facility remodeling goes smoothly and safely.

On average, a complete building remodeling project takes 3-6 months to complete, but this all depends on the overall size and complexity of the project, as well as the amount of work and several trades and divisions our client choose to remodel.

A good rule of thumb: For every \$10,000 spent, expect it to take 1-2 weeks to complete its work.

However, before doing any work, there is a planning to be done, may be some approvals, permits to be pulled, etc.—all of which takes time.
