1. Company History

BADRY INFRA was incorporated in July 2000 as a private limited liability company in Egypt, under the Company BADRY GROUP. Prior to this, the company had operated as an INFRA services & site facilities provider. However, the company expanded its scope of operations and therefore rebranded as BADRY INFRA to be able to capture the wide range of expertise and services it offers to various sectors of the economy.

BADRY INFRA is a global fully integrated professional services and project management company and a major player in the ownership of infrastructure. BADRY INFRA employees are proud to build what matters. The company currently operates from offices in Cairo, Alex. and Sohag.

Our Team provides comprehensive end-to-end project solutions such as **capital investment, consulting, design, engineering, procurement, construction, facilitating foreign direct investment as well as establishing joint venture operations and maintenance.**

2. Company Vision & Mission Statement

Vision Statement

“To be the leading solution partner of choice in the Infrastructure Water & Sewers, MEP, Utilities, Energy, Oil & Gas, Agriculture, Technology, Facility & Equipment sectors of the economy.”

Mission Statement

“To be reputed for the excellent products and services we offer and to serve as a role model to all our stakeholders.”

3. Management & Leadership

BADRY INFRA and its partners consist of a team of high performing multi skilled, multidimensional leaders and professionals whose goals are to execute every project to outstanding world class standards.

We work with our partners to give our clients “The BADRY INFRA Touch”. The BADRY INFRA touch refers to our aspiration to exceed every client’s expectation through innovation and excellence. BADRY INFRA touch provides a platform for our teams to create and bring the dreams of our client’s to life. Our sole focus is to ensure that our work is impressive, stands the test of time and our high level of performance ensure that we stand above the crowd.

BADRY INFRA and its partners have adopted qualitative software such as Power Information Management System Software and Project Management Software. This software powers our operations and promotes the information based management of BADRY INFRA and its partners. Therefore our operations have BIM that relates to quality, safety, material, costs and work progress.

BADRY Infrastructure Co.

BADRY INFRA offers Infrastructure solution and services that include engineering, design, development, construction and operation & maintenance, with a strong emphasis on transport-related projects.

Roads & Bridges

Tunnels & Undergrounds

Airports & Aviation

Ports and Marine

Water & Sewer & Irrigation

Pipe-lines, Oil & Gas Services

Energy & Power Facilities

Transportation & Railways

INFRASTRUCTURE WORKS

MEP Infra networks & utilities, pipeline or water treatment infrastructure. BADRY INFRA can take on the design, construction and maintenance of both existing and new infrastructure true. We can do this not only for buildings & facilities but also for road construction, water irrigation and sewage works.

BADRY INFRA can help to build lock facilities in ports to enable the latter to welcome increasingly large vessels. The lock is huge in many ways: it contains huge amount of steel and is as wide as a highway up to 20 traffic lanes.
